

# Acts 17:9

Authorized King James Version (KJV)

And when they had taken security of Jason, and of the other, they let them go.

## Analysis

---

**And when they had taken security of Jason** (λαβόντες τὸ ἱκανὸν παρὰ τοῦ Ἰάσονος)—literally 'having received the sufficient from Jason.' The Greek τὸ ἱκανὸν refers to a bail bond or surety, likely a monetary pledge guaranteeing Paul and Silas would not return to disturb the peace. Jason became legally responsible for their conduct, placing his property and freedom at risk for the gospel.

**They let them go** (ἀπέλυσαν αὐτούς)—The politarchs released Paul's team without formal charges, recognizing the accusations lacked merit. Jason's financial guarantee satisfied Roman pragmatism: order was restored without punishing innocent men. This legal maneuver allowed the gospel to advance while protecting the fledgling church, though it forced Paul to leave Thessalonica prematurely (1 Thessalonians 2:17-18 suggests Paul desperately wanted to return).

## Historical Context

---

In Roman Macedonia (circa 50 AD), politarchs (city rulers) balanced maintaining order with Roman legal principles. Archaeological inscriptions confirm this unique title used in Thessalonian governance. The 'security' was likely a cash bond forfeited if Paul returned and caused further disturbances—a common Roman legal practice protecting public order while avoiding unjust imprisonment.

## Study Questions

---

1. What has the gospel cost you in terms of risk, reputation, or resources, as it cost Jason his security?
2. How does Paul's forced departure from Thessalonica (yet productive ministry elsewhere) illustrate God's sovereignty over both success and apparent setbacks?
