

# Ecclesiastes 7:19

Authorized King James Version (KJV)

Wisdom strengtheneth the wise more than ten mighty men  
which are in the city.

## Analysis

---

**Wisdom strengtheneth the wise more than ten mighty men which are in the city.** The Hebrew *chokmah* (חֹכְמָה, wisdom) provides strength ( *ta'az*, תָּעַז) surpassing physical or military power. Ten mighty men (*shalitim*, שְׁלִיטִים)—powerful rulers or warriors—represent concentrated human strength, yet wisdom gives superior advantage. This proverb demonstrates wisdom's practical superiority over brute force.

Solomon had witnessed how strategic wisdom outmaneuvered armies (2 Samuel 20:16-22, where one wise woman saved a city). Proverbs 21:22 echoes this: 'A wise man scaleth the city of the mighty.' Wisdom provides discernment to avoid conflicts, insight to resolve problems, and understanding to navigate complex situations—advantages raw power cannot match. Paul later affirmed that God's 'foolishness' is wiser than human strength (1 Corinthians 1:25), and spiritual wisdom in Christ surpasses all earthly power.

## Historical Context

---

Ancient Near Eastern cities maintained garrison forces for defense—'ten mighty men' represented substantial military strength. City elders relied on both military power and wise counsel for governance. Solomon's own wisdom saved lives through discernment (1 Kings 3:16-28) and secured peace through diplomacy rather than conquest during most of his reign. In Israel's covenant framework, God provided wisdom to leaders as more valuable than military might (Deuteronomy

4:6). The wisdom literature tradition consistently elevated understanding over force—a countercultural claim in warrior societies. Jesus embodied this principle, conquering through apparent weakness rather than political or military power (Philippians 2:6-8).
