

Exodus 26:15

Authorized King James Version (KJV)

And thou shalt make boards for the tabernacle of shittim wood standing up.

Analysis

Boards (שִׁטִּים, qeresh, planks/frames) of acacia wood provide structure. These standing boards contrast with the horizontal coverings, creating the tabernacle's skeleton. Wood represents humanity; these boards stood upright (resurrected position), overlaid with gold (deity). They prefigure believers who were dead but now stand upright in Christ, our humanity transformed by His divine nature (2 Peter 1:4). We are 'living stones' built into a spiritual house (1 Peter 2:5).

Historical Context

These boards were substantial frames, approximately 15 feet tall and 27 inches wide, creating the tabernacle's walls. Unlike solid walls, the frame design allowed for portability while maintaining structural strength during the wilderness wanderings.
