

Exodus 34:33

Authorized King James Version (KJV)

And till Moses had done speaking with them, he put a vail on his face.

Analysis

God will send 'hornets' (צִרְעָה, tsir'ah—literally hornets/wasps) before Israel to drive out enemies. This may be literal insects, metaphorical for plague/panic, or symbolic of Egyptian/Assyrian military campaigns that weakened Canaan before conquest. Regardless of interpretation, the point is clear: God uses natural and supernatural means to accomplish His purposes. Israel's task is to follow, not to create, victory.

Historical Context

This promise appears three times (Ex 23:28, Deut 7:20, Josh 24:12). Canaan was indeed weakened by Egyptian campaigns in the Late Bronze Age. Archaeological evidence shows destroyed cities and declining populations before Israel's arrival.
