

# Mark 1:42

Authorized King James Version (KJV)

And as soon as he had spoken, immediately the leprosy departed from him, and he was cleansed.

## Analysis

---

The immediacy of healing ('immediately the leprosy departed') demonstrates Christ's divine authority—no gradual improvement, but instant restoration. Mark's precise observation shows his attention to miraculous detail. The departure of leprosy signifies Christ's power over curse and corruption, prefiguring His victory over sin's effects. This physical healing pictures the instant justification believers receive at conversion.

## Historical Context

---

Natural remission of leprosy was unknown in ancient times; cases only worsened until death. The instant nature of this healing would have been unmistakable evidence of supernatural intervention. This miracle would have had enormous social implications for the healed man's restoration to family and community.
