

Mark 3:1

Authorized King James Version (KJV)

And he entered again into the synagogue; and there was a man there which had a withered hand.

Analysis

Jesus 'entered again into the synagogue'—returning to public worship and teaching despite rising opposition. The phrase 'again' (πάλιν) indicates repeated pattern—Jesus regularly participated in synagogue worship, demonstrating continuity with Jewish worship forms while transforming their content. The man 'with a withered hand' suffered chronic disability—the perfect participle indicates long-standing condition. 'Withered' suggests muscle atrophy, making the hand functionally useless. Jesus' encounter sets up another Sabbath controversy, testing whether Jesus will prioritize mercy over Pharisaic regulation. The man's passive presence contrasts with active faith elsewhere—he didn't seek Jesus but became the object of compassionate initiative.

Historical Context

Synagogues served as local Jewish worship centers in most towns with Jewish population. Sabbath services included Torah reading and teaching. Physical disabilities often resulted in social marginalization and economic hardship—no disability support, limited employment options, dependence on charity. Yet Jewish law welcomed disabled into worship. Jesus' willingness to heal on Sabbath challenged Pharisaic priorities.
