

Matthew 3:6

Authorized King James Version (KJV)

And were baptized of him in Jordan, confessing their sins.

Analysis

The act of baptism signified repentance and cleansing, but confession of sins was equally crucial. True repentance involves specific acknowledgment of sin, not merely general admission of human imperfection. John's baptism was preparatory, pointing to Christ's superior baptism with the Holy Spirit. The public confession demonstrated the social dimension of repentance—sin is not merely private but affects the covenant community.

Historical Context

Jewish proselyte baptism was known, but John's baptism of Jews was revolutionary, implying ethnic Israel needed the same repentance as Gentile converts. Public confession in the Jordan River was a humbling act, renouncing self-righteousness before the covenant community.

Related Passages

Romans 2:1 — Judging others

Matthew 25:31 — Final judgment

Study Questions

1. Why is specific confession of particular sins important rather than vague acknowledgment of general sinfulness?

2. What does the public nature of confession teach about accountability within the Christian community?
