

# Proverbs 24:13

Authorized King James Version (KJV)

My son, eat thou honey, because it is good; and the honeycomb, which is sweet to thy taste:

## Analysis

---

'My son, eat thou honey, because it is good'—wisdom is compared to honey's sweetness and nourishment. The verse delights in honey's pleasure and benefit, then applies the metaphor to wisdom (v. 14). Just as honey tastes sweet and provides energy, wisdom delights the soul and strengthens life. This positive framing contrasts with warnings about folly's bitterness. Wisdom isn't merely duty but delight, not just beneficial but pleasurable. Those who taste wisdom find it sweet; the truly wise person craves it like honey. This echoes Psalm 19:10 and 119:103 about God's Word being sweeter than honey. Cultivate appetite for wisdom by tasting its goodness; experience will create desire for more.

## Historical Context

---

Honey was the primary sweetener in ancient Israel, making it a natural metaphor for life's best pleasures. The Promised Land flowed with milk and honey, symbolizing abundance and blessing.
