

Proverbs 26:12

Authorized King James Version (KJV)

Seest thou a man wise in his own conceit? there is more hope of a fool than of him.

Analysis

Do you see someone wise in their own eyes? There's more hope for a fool than for them. The Hebrew 'chakam be`eynayv' (wise in own eyes) describes self-deception. Fools may lack knowledge but can potentially learn. Self-deceived people convinced of their wisdom cannot learn - they reject instruction because they think they know better. This worst form of foolishness: unteachable pride. Proverbs 3:7 warns: 'Be not wise in thine own eyes: fear the LORD, and depart from evil.'

Historical Context

Scripture consistently identifies pride as the greatest sin and greatest obstacle to growth. 'God resisteth the proud, but giveth grace unto the humble' (James 4:6). Jesus condemned Pharisees for this exact failing: 'If ye were blind, ye should have no sin: but now ye say, We see; therefore your sin remaineth' (John 9:41). Admission of ignorance enables learning; confident self-deception prevents it.

Related Passages

1 Corinthians 13:4 — Characteristics of love

John 15:13 — Greatest form of love

Revelation 20:12 — Judgment according to deeds

Matthew 25:31 — Final judgment

Study Questions

1. In what areas are you 'wise in your own eyes' - confident you're right despite evidence otherwise?
2. How does self-deception prevent growth that acknowledged ignorance would enable?
3. What humility would make you teachable in areas you currently consider yourself expert?
