

Proverbs 5:17

Authorized King James Version (KJV)

Let them be only thine own, and not strangers' with thee.

Analysis

Let sexual intimacy be yours alone, not shared with strangers. The Hebrew 'zur' (stranger/outsider) indicates those outside covenant marriage relationship. This verse answers v.16's rhetorical question: no, don't disperse your fountains; keep them exclusive. Sexual intimacy belongs within marriage exclusively. Sharing what should be private violates intimacy's nature and degrades what should be sacred.

Historical Context

Marriage covenant created exclusive sexual rights - adultery violated not just morality but contractual obligations. The seventh commandment ('Thou shalt not commit adultery') protected marriage's exclusivity. Jesus intensified this, condemning even lustful thoughts as heart-adultery (Matthew 5:27-28). Paul taught that bodies belong to spouses, not to self or others (1 Corinthians 7:3-5).
