

Psalms 6:2

Authorized King James Version (KJV)

Have mercy upon me, O LORD; for I am weak: O LORD, heal me; for my bones are vexed.

Analysis

David's physical weakness becomes the basis for his plea for mercy. The Hebrew 'amal' (weak) suggests withering or languishing, while 'bahal' (vexed) means terrified or dismayed. The mention of 'bones' represents his entire being - physical and emotional anguish. This teaches that believers can honestly bring their frailty before God as a reason for His compassion, not stoic denial. God's mercy is directed precisely toward the weak (2 Corinthians 12:9). The prayer for healing acknowledges God as the ultimate physician of body and soul.

Historical Context

Ancient Israelites understood physical illness as often connected to spiritual condition, though not in simplistic one-to-one correlation. David's illness could have been punishment for sin, enemy attack, or simply the frailty of creation under the curse. His appeal to God for healing shows faith that Yahweh controls both spiritual and physical realms.
